

Interseed Potatoes GmbH

SEED POTATOES IN BEST FORM

Specialized on processing varieties

Since 1980 we are producing seed potatoes of the highest quality with a focus on the processing sector.

The best locations for the seed potato production, experienced and well-trained staff and continuous monitoring of all cultivation and storage sections guarantee top quality.

Of course, our competent team will assist you with all matters of potato cultivation and will be pleased to support you.

We are only satisfied if our customers are satisfied!

With our potato varieties Interseed Potatoes GmbH is internationally known. The propagation area has always expanded with increasing demand. Today, our varieties are propagated and marketed in Germany and globally by our partner companies.

We are always striving to expand our activities in other countries in order to optimally serve the growing demand for our varieties.
